ARRIVAL & REGISTRATION Tea, coffee & pastries upon arrival

09:30 – 10:00

WELCOME & INTRODUCTION

TouchstoneFMS Sales and Marketing Director David Singh, will give an update on Touchstone including highlights of the previous year and new customer initiatives.

Session 1

INFOR UPDATE

Tim Szabronski, Channel Partner Manager will give an update on Infor including highlights of the previous year and key messages for the customer community.

Session 2

SUNSYSTEMS 6.3 CE (CLOUD EDITION)

Over the past 18 months Infor have been investing time and effort in getting SunSystems Cloud Ready, the first version publicly available in the Infor Cloud is version 6.3. See SunSystems 6.3 working in the Infor Cloud within the Infor OS environment. You'll also learn about SunSystems Cloudsuite the full multi-tenant version, planned for release at the end of 2019.

Session 3

SUNSYSTEMS 6.4 & Q&A 11.2

The latest versions of SunSystems & Q&A are due for release in April, it's been almost 2 years in development and this is your chance to see them both in action and understand the new features and functions and the benefits to the user.

11:00 - 11.30

REFRESHMENT BREAK

Session 4

SUNSYSTEMS ROADMAP 2019 & BEYOND

Having seen SunSystems 6.4, what's next? Infor will share with us their early thoughts and outline plans for SunSystems & Q&A for the next 2 years.

Session 5

INFOR OS (Operating Service)

Digital Transformation is happening. In this session we will give you a reminder of what Infor OS is, what it does and why we feel it should be underpinning your Digital Transformation.

Session 6

INFOR EAM (Enterprise Asset Management)

An introduction to this market leading solution that provides comprehensive functionality for any asset intensive organisation needing optimum uptime and performance from their plant and equipment or any business which manages a large estate of assets.

Session 7

PORTS OF JERSEY

We will round off the morning with a look at how one organisation has embraced Digital Transformation with Infor's technology and applications and is benefitting from implementing Infor OS, SunSystems, EAM and d/EPM
