Welcome to the world
of Infor SunSystems Cloud

Organisations are constantly pressured to achieve more with fewer resources in today's competitive environment. Bottlenecks caused by manual operations, isolated data and limited financial transparency can impede strategic decision-making. Infor SunSystems Cloud is a robust, user-friendly and flexible solution that directly addresses these issues.
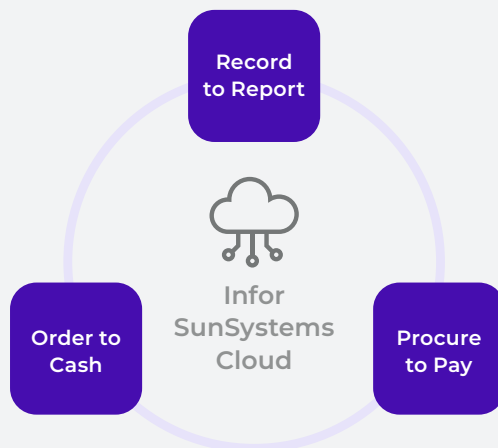

This solution transcends traditional financial management software. In addition to streamlining your accounting procedures and enhancing organisational efficiency, it offers a comprehensive and scalable framework to break down data silos across your operations. It gives you real-time access to your financial status and converts data into actionable insights.

Trusted by over 8,000 clients in 190 countries, Infor SunSystems Cloud simplifies your financial processes from beginning to end. With over four decades of expertise, Infor SunSystems Cloud serves various industries globally, including financial services, hospitality, non-profit organisations and energy.

Infor SunSystems Cloud oversees your entire financial cycle

Infor SunSystems Cloud helps organisations in addressing challenges through three key business processes:

Record to Report

Infor SunSystems Cloud

Order to Cash

Procure to Pay

1. **Record to Report (R2R): Shift your focus from data entry to insights.**
   Automate workflows, streamline record-keeping and gain real-time financial visibility with easy-to-use reporting tools.

2. **Procure to Pay (P2P): Make smart spending decisions.**
   Manage costs with a unified procurement system, simplifying everything from supplier management to payments.

3. **Order to Cash (O2C): Accelerate your receivables process.**
   Generate timely orders and invoices, automate tasks and gain valuable customer insights—all to maximise revenue and cash flow.

Infor SunSystems Cloud's robust and flexible capabilities enable you to enhance efficiency, simplify processes, improve reporting and empower your team to focus on what truly matters – propelling growth.

Streamlined
financial reporting

Financial data
accuracy

Maximised compliance

Drive business efficiency. Infor SunSystems Cloud empowers your team to focus on analysis and strategic thinking rather than manual tasks. Our user-friendly interface and automated workflows make record-keeping straightforward, saving precious time and resources. It's designed to ensure accuracy, streamline processes and enable informed decision-making.

- **Flexible accounting:** Align financial analysis to meet your evolving business needs and be able to report on any change you make with extensive user-definable multi-dimensional analysis - without compromising your chart of account code structure.

- **Simplified global reporting:** Reduce complexities with a single solution that allows you to address local currency, language and tax regulations across multiple jurisdictions.

- **Automated data entry and integration:** Say goodbye to manual data entry. Minimise errors and free your team to focus on more strategic tasks.

- **Maximised compliance:** Maintain a clear audit trail for all transactions, ensuring you meet regulatory standards and mitigate the risk of financial misstatements.

- **Streamlined financial reporting:** Generate detailed and analytical reports swiftly and effectively, combining dynamic drill-down capabilities to explore further analysis details and uncover deeper financial insights.

- **Document management:** Digitally manage all your business documents and seamlessly connect them to transactions and records. By doing so, you'll not only save time, money and storage space but also contribute to your company's eco-friendly initiatives.

See beyond today's numbers and focus on long-term growth. Infor SunSystems Cloud removes the burden of record-keeping, giving you the insights you need to build a sustainable future for your business.

Procure to Pay: From requisition to payment in record time

Streamlined workflows

Improved supplier relationships

Spend insights

Procure to Pay

Controlled spending

Reduced risk
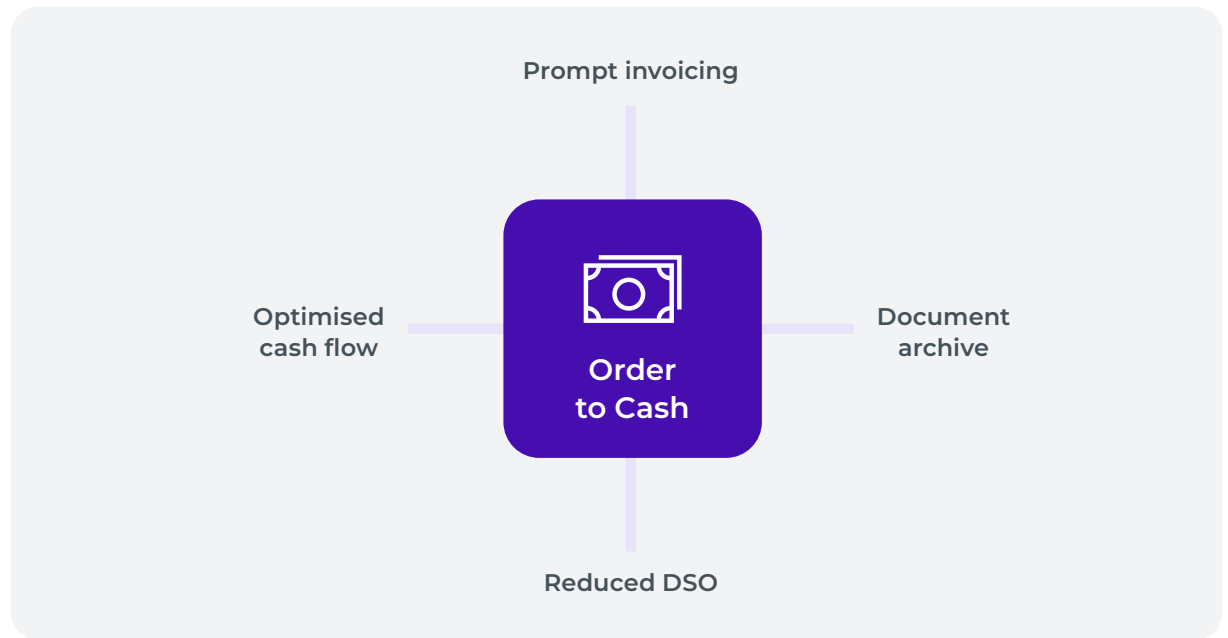

Business process efficiency

Move beyond trivial tasks. Infor SunSystems Cloud automates the Procure to Pay process, freeing your team to focus on strategic initiatives, like building stronger supplier relationships and developing cost-saving strategies.

- **Automated workflows:** Streamline approval workflows for onboarding new suppliers, managing bank details and processing purchases. Enhance your payment processing experience with automated document storage and email delivery of purchase orders and remittance advices.

- **Spend insights:** Gain real-time visibility into spending patterns and identify cost-saving opportunities for better contract negotiations.

- **Risk management:** Maintain a transparent audit trail for all procurement activities, ensuring adherence to internal policies and mitigating fraud risks.

- **Real-time financial visibility:** Increase business process efficiencies with seamless integration into the financial ledgers to enable automatic commitment tracking, accrual accounting and payables postings.

- **Minimised maverick spending:** Enforce internal purchasing policies to reduce unauthorised purchases and ensure your budget stays on track.

- **Improved supplier relationships:** Foster trust and collaboration with suppliers through transparent communication and streamlined processes.

By streamlining procurement with Infor SunSystems Cloud, you can gain greater control, optimise cash flow and unlock new levels of efficiency.

Order to Cash: Achieve a healthier bottom line

Prompt invoicing

Optimised
cash flow

Reduced DSO

Handle outstanding invoices efficiently. Infor SunSystems Cloud streamlines your entire Order to Cash process, maintaining a healthy cash flow and boosting profitability.

- **Prompt invoice generation:** Automate repetitive tasks like data entry and invoice creation to ensure invoices are issued quickly and accurately, reducing delays and rework.

- **Streamlined processes:** Boost operational efficiency with Infor SunSystems Cloud. Our solution provides flexible invoicing, automated document storage, and prompt email delivery of sales orders, invoices and customer statements.

- **Reduced Days Sales Outstanding (DSO):** Speed up the invoice-to-payment cycle to improve cash flow and reduce the need for bad debt reserves.

- **Optimised cash flow:** Efficient cash management with Infor SunSystems Cloud frees up capital trapped in outstanding invoices, enabling you to optimise your financial assets.

Accelerate your Order to Cash cycle with Infor SunSystems Cloud to optimise your working capital, achieve faster collections and improve cash flow.
