Agenda

touchstone LIVE

Tuesday 16th May 2023

The Alpha Room, Departure Terminal Building, Jersey Airport, JE1 1YB

09:30 **Welcome, Introductions, Agenda and Objectives**
David Singh – Head of Infor Business Unit will introduce the agenda and outline the objectives of the event.

09:45 **Infor Update**
Andrew Newman - VP & GM SunSystems IBU will give an update on the significant changes that have taken place at Infor.

10:00 **SunSystems Cloud**
Tariq Hawa - Product Director will give an update on SunSystems Cloud, the latest generation of SunSystems, and its importance for customers.

10:15 **SunSystems Cloud in Action**
In this session, we will show you Infor OS and SunSystems Cloud in action, see the user experience along with new features and functions and detail the modules included as part of the subscription.

11:00 **Refreshment Break**

11:30 **SunSystems Roadmap**
Now that SunSystems Cloud has been delivered, what can users expect from future releases and the support status of current versions? Tariq Hawa will explain all in this session.

12:00 **SunSystems Add-On Applications**
SunSystems has a wealth of add on applications, in this session we will explain where they all fit in the new world of SunSystems Cloud.

12:15 **Introducing Sysynkt for SunSystems**
Embracing automation technologies within the Finance department is a must have to drive efficiencies and cost savings. In this session we will introduce you to a new suite of Cloud based applications from emerging software author Sysynkt that are fully integrated with SunSystems. We will cover AP Automation and Bank Reconciliation.

13:00 **Lunch**

14:00 **Sharperlight Reporting Tool**
In this session we will introduce Sharperlight, a powerful reporting tool that can report over any data source, including SunSystems and EAM.

14:30 **HxGN EAM (Enterprise Asset Management)**
In this session led by Jochen Reiß from Hexagon, we will demonstrate what's new in the new mobile workforce app, and review the roadmap for HxGN EAM. We will also take a look at Python Studio and SS, plus explore options for integration.

15:30 **Questions & Close**
